Opening Invocation

****Hawk Eye****

It's that never givin' up

'Start and Finish' what's begun
That 'I don't give a shit, you bitches
Couldn't win this if you won!'

--

Came with fully auto M-16s - Police with extra magazines
Some one call the Navy quick - Before these fuckin lunatics
Go and piss me off - Shit even Goku can kick rocks
I'm not playin - what I'm sayin is you better count the cost

You'll need NATO Fighter Jets and Fuckin' Napalm just to play
Live grenades won't do a bit of good - Bitch didn't you hear me say?

Out of all who go Against Me - NONE shall prosper
I don't gotta watch my back - Cuz there's no enemy to watch for
But my weapons - smith and Wesson - plus the real thing keeps you guessing
see this gun's for your protection - from what Karma might be blessin'

You, them and the rest - with some shit I must confess
Scares the fuck right out me - everytime -
that bitch's possessed

So when I say you'd need an Army - listen bitch you couldn't harm me
Even if Nachtwaffe whole Armada came - they would be sorry
I am not just talkin' Mar's Crew - Bring the Baphomet's Dark Star too
The whole fleet - Then watch and see what happens when my Tribe decides to
spar too...

HOOKs

***((We need this to be a choir of Men and Women's voices))**
__IT NEEDS TO SOUND BOTH GHOSTLY AND ETHERIAL__
\$ But Also Fierce And Insurrective ... haha... united we stand \$

(Hence the need for multiple voices in unison for this hook!)

- This is God's Flow - YOU do NOOOT know

How well protected and Connected — We. jUst. are So

Best get To stepping - Any questions? Even Heaven can't neglect it

Look around you - Yo check it - this is Our Home...

***** V 1 from*****

WAR SONG _ I SET IT UP FOR YOU !!!! PERFECT!

Verse 2- Hawk Eye

It's that 'Holy Wizard's
Firm Conviction'
"Fuck IF that Balrog is gettin
One lota closer
To my line drawn there to Hold Him...."

"BACK! - You SHALL NOT pass!"
WTF I didn't ask...
I'm a servant of the Secret Fire
Wielder of the flame of Anor

The darkness shall
not avail you -
Flame of Udun -
Let me tell you

Back to the shadow
Is where you're goin
This battle is far beyond your comprehension
You should listen close, bitch

I Command and Wield Oloorin's
Sacred Blade -
The Fires of Narya
Came to say

Fuck your bullshit flash

Come out that cave
It's time to die, okay

Compared

It's a fuckin' snowflake
My Internal Smoldering Components
Grind the gears to dust
So fuck what you say

Look Superman – Bruce Wayne & Peter
Parker know they're not my Equal
Fuck you gonna do
When I train my Aim your way

This Loco Motive
Would Steamroll
All opposed – Fuck Every Soul

My Justice leaves a bigger leak
than when Legion came Home

So when I'm speaking know I Mean it
I am He – If you can't see this
Then you'll need an exorcism
I'm this System's new Priest

Yesterday the pope died
Just in case you thought I
Released Full Disclosure
Way back when those covid lies tried

To cover over Epstein's story
Coincidental Allegory?
No – Just truth I shoot right thru
To make sure that the news ain't boring

Whole world's watchin
Now I've got 'em
Right in my sights
Just Where I want 'em
Told you bitches
Against me – there's no fight

Pre-Chorus (Placeholder)

(*Space for WarSong's incoming pre-verse line or breath break*)

Verse 2 – WarSong (Incoming)

(*Placeholder for WarSong's verse after collaboration*)

Final Hook / Outro (Repeat or Variant)

(*Skip for now: Web format is primary priority*)

🎯 Notes:

- Treat the song as a ****breathable track****: ****infinite or flexible runtime****.
- We can loop, extend, or compress based on energy between Hawk Eye x WarSong later.
- The intro micro-loop ("breathing effect") sets a prophetic tone.
- Final album/EP slotting still TBD but structurally complete.
